Kids Activities

Fingerprint Fall Trees - Yellow and red make orange! Mix up some fun fall colors, and watch as your child creates vibrant seasonal prints. A simple finger tip can be used to make an entire tree, complete with beautiful autumn leaves. What you need: Tempera Paint & Paper.

What You Do:

1. Begin with mixing color. Give your child the primary colors (red, yellow, and blue) as well as white paint (or other colors they may choose). Encourage them to explore with mixing and creating their own unique colors. Paint mixing can be done with a small paint brush, or with the child's hands.
2. Ask your child to dip a finger into the paint, have them press their finger repeatedly onto the paper, making a tree trunk. Repeat these steps to make branches.
3. Dip finger into the colors one at a time, and then press the finger onto the paper (on the branches) to make leaves.
4. Be sure to wash fingers, in between changing colors, so colors won't mix on the tree.

Create your own beautiful masterpiece!
